## **FOREWORD**

We published for the first time in the year 1968 the Directory containing detailed statistical information on small scale industrial units registered with our Directorate till March 1966. This Directory is the second in series showing detailed particulars of small scale industrial units registered with us from 1st April 1966 to 31st March 1969.

There are wide gaps in our industrial statistics on the small scale. The inadequacy of the statistics is a formidable handicap. This Directory is a modest effort to meet a part of this inadequacy. This would also serve as a guide book to prospective entrepreneurs.

Every effort has been made to provide particulars of the units as faithfully as possible. Certain errors, however, are not unlikely in a voluminous compilation of this dimension. We would welcome suggestions to improve the Directory and its contents.

## INTRODUCTION

This present Directory, like the previous one published in the year 1968, shows detailed information on the items of manufacture, installed capacity, employment, capital investment, etc., in respect of 2,080, 1,596 and 1,626 number of S.S.I. Units registered with the Directorate of Cottage and Small Scale Industries, West Bengal, during 1966-67, 1967-68, & 1968-69, respectively. The Units are arranged District-cum-Industry-wise separately for each year in alphabetical order. The industries are grouped according to the International Standard Industrial Classification, the details of which are available in the present volume. For the units engaged in more than one types of industries, their names have been shown at one place giving the description of all the items manufactured by them. A glance at the Index for industrial products will help in finding out the units engaged in the manufacture of a particular item.

The pattern of the District-cum-Industry-wise distribution of all these 5,302 units is shown in a tabulated manner (Table I). It may be noticed from the District-wise analysis that Calcutta leads with 26.87 per cent. of the total registration made during the period under reference. Howrah secures the second place with 12.07 per cent. of the Units followed closely by 24-Parganas with 11.52 per cent. and Bankura with 10.22 per cent. of the units. In this connexion the distribution of the S.S.I. Units registered during 1961-66 may be seen (Table II).

It is found that till 31st March 1966 nearly half, i.e., 49.05 per cent. of the units were located in Calcutta whereas during the subsequent three years the corresponding share has come down to only 26.87 per cent. Again Calcutta and its neighbouring two Districts of Howrah and 24-Parganas together claimed nearly 82.06 per cent. of the units in 1961-66 whereas in the next three years their corresponding share is only 50.46 per cent. This time it is observed that the Districts particularly Bankura, West Dinajpur, Malda and Darjeeling have shown much progress towards the volume of registration.

Analysing the distribution of units classified under different groups of Industries, it is found that the group-Textiles including Textile Wearing Apparel comes out to be the largest industry-group with 12.54 per cent. of the total units followed closely by Basic Metal Industries with 12.14 per cent. and Manufacturing of Machinery excepting Electrical Machinery with 11.52 per cent. of the units. Other groups worth mentioning are Manufacture of Metal Products with 9.79 per cent., Food and Beverage with 9.30 per cent., Chemical and Chemical products with 8.62 per cent. of the units. A comparison with the pattern of distribution of the units registered during 1961-66 shows somewhat a different picture where the group of Basic Metal Industries secured the first place having 19.75 per cent. of the units followed by Manufacture of Metal Products with 17.68 per cent., Manufacture of Machinery except Electrical Machinery with 10.54 per cent., Chemical and Chemical products with 9.14 per cent., Textiles including Textile Wearing Apparel with 5.64 per cent. and Manufacture of Electrical Machinery and Apparatus with 5.43 per cent. of the Units.

An attempt has also been made to throw light on the Employment and Block Capital Investment of the Registered Units as may be seen from the following comparison :

### *Characteristics of the S.S.I. Units registered during the period*

| Characteristics.                              | 1961-66. | 1966-67. | 1967-68. | 1968-69. | 1966-69. |
|---|----------|----------|----------|----------|----------|
| Average Employment per Unit ..                | 18.0     | 9.0      | 12.4     | 19.6     | 13.2     |
| Average Block Capital per Unit<br>(Rs. '000). | 51.8     | 32.6     | 42.6     | 85.3     | 51.5     |

It is found that 13.2 is the average employment per S.S.I. Unit registered during 1966-69 compared to 18.0 generated by a Unit registered during 1961-66. It is quite interesting to note that the average employment per unit shows an upward trend during the years under

review, the figures being 9·0, 12·4 and 19·6 for 1966-67, 1967-68 and 1968-69, respectively. Although there is a fall of nearly 26·7 per cent. in the average employment generated by a Unit registered during 1961-66 to 1966-68 but surprisingly there is almost no change in their average Block Capital investment. However, as in the case of employment, we find a steady increasing trend in the average Block Capital of the Units registered during the three years under consideration.

## SMALL INDUSTRY AND ASSISTANCE

Promotional measures of the Directorate of Cottage and Small Scale Industries for development of Small Scale Industries are numerous and we are quoting below only the most important items—

- (1) Loan.
- (2) Raw materials from indigeneous sources.
- (3) Recommendation for import licence.
- (4) Power supply.
- (5) Hire purchase facilities for machines.
- (6) Registration with Small Industries Service Institute for participation in Government of India's store purchase programmes, technical assistance, formulation and approval of schemes, etc.
- (7) Registration with the Director-General of Supplies and Disposal, New Delhi, for participation in Government store purchase programme.
- (8) Recommendation for telephone connection and priority in allotment of wagons from Railways.

(9) Recommendation for consumable stores of controlled varieties.

(10) Export Promotion.

(11) Accommodation in Industrial Estates.

(12) Quality Marking facilities.

(13) Exhibition and Marketing.

To qualify for having any of these assistances Registration with the Directorate of Cottage and Small Scale Industries as Small Scale Industries will be considered a 'Must'. For the purpose of this Registration, definition of Small Scale Industry will be:

"All Industrial Units with a capital investment of not more than Rs. 7.50 lakhs irrespective of the Nos. of persons employed. Capital investment for this purpose will be investment in Plant and Machinery only. In case of Ancillary Industries this ceiling will be relaxed up to Rs. 10 lakhs."

## OUR PRODUCTS

### ● RICE

We produce superior quality of rice, by most modern methods of parboiling and shelling by Rubber Roll Sheller.

### ● RICE OIL

We are the only producers of rice oil, i.e., Rice Bran Oil in the Indian Union which contains less than 15 per cent. F.F.A.

### ● DE-OILED BRAN

We manufacture De-oiled Bran, i.e., Rice Bran Extraction of 18.5.8 and 18.3.5 quality. 18.5.8 quality indicates that protein contents in the Rice Bran Extraction must be more than 18 per cent. and Sand Silica will be 5 per cent. to 8 per cent.

Whereas 18.3.5 quality means protein content will be more than 18 per cent. but Sand/Silica will be between 3 per cent. to 5 per cent. in our product.

We have exported our products in the YEAR 1970 to the following countries and earned valuable foreign exchange in U.S. Dollars and Sterling Pounds which are as follows:

|                |     |                 |     |          |
|----------------|-----|-----------------|-----|----------|

**ARE YOU A SMALL SCALE INDUSTRIAL UNIT IN WEST BENGAL?**

If your investment in Plant and Machinery does not exceed Rs. 7.5 lakhs, you are advised to get your firm registered free of cost with the Directorate of Cottage and Small Scale Industries.

### **PURPOSE OF REGISTRATION:**

Such registration will qualify you to apply for various Government assistance programmes, such as, industrial loans, allotment of raw materials, import licence, exemption of earnest money, etc. and will at the same time help the State Government to augment its due quota of scarce raw materials as this quota will depend on the actual strength of the units so registered. Besides, the Statistical data collected through Registration programme will help the Government to make necessary plans for the development of industries in the country.

### **WHERE TO APPLY:**

For registration of SSI Units located within the jurisdiction of the Calcutta Corporation, please apply in the prescribed application form to the Dy. Director of Industries (Statistics), Survey Wing, 67, Bentinck Street (3rd floor), Calcutta-1, and in Districts and Rural Industries Project areas to the respective District Industrial Officers and Rural Industries Project Officers. For Block areas please contact Extension Officer (Industries) at block-level.
